

JOEL A

Tirunelveli, Tamil Nadu

+91 9042484400 | ajjoel07@gmail.com | github.com/JoelA-07

PROFILE

Computer Science Engineering student with strong problem-solving skills and experience in full-stack and mobile application development. Solved 1500+ coding problems across competitive platforms. Skilled in building scalable systems with focus on performance, security, and real-world applications.

EDUCATION

National Engineering College	2023 – 2027
B.E. Computer Science Engineering	CGPA: 9.05
Rosemary Matric Higher Secondary School	2020 – 2023
HSC: 96%	

TECHNICAL SKILLS

Languages: C, C++, Java

Web & App: HTML, CSS, React.js, Node.js, Flutter

Databases: MySQL, MongoDB

Core: Data Structures, Algorithms, OOPs, DBMS, Computer Networks

PROJECTS

AcadCore Academic ERP System (React.js, SQL)

- Developed an academic ERP system integrating all core academic operations in a single platform.
- Enabled staff to mark attendance, enter internal marks, and automate internal assessment calculations.
- Reduced manual academic workload by automating key processes like attendance and internal calculations.
- Implemented subject allocation for staff and CBCS-based student course registration.
- Generated academic reports including attendance, internal marks, and performance summaries.
- Provided student progress tracking through consolidated academic dashboards.
- Implemented **Redis caching** to optimize data retrieval and improve system performance.
- Implemented secure authentication and access control using **JWT** and **OAuth**, along with **CORS** and **CSRF** protection for secure API communication.

AI Assisted Event Management System (Flutter, SQL)

- Developed a unified mobile application to manage end-to-end event planning in a single platform.
- Implemented **role-based login** for customers, organizers, and vendors including catering, decorators, photographers, and invitation designers.
- Enabled **conflict-free booking system** to prevent overlapping vendor schedules and ensure efficient event planning.
- Supported bundled service selection and integrated payment processing for seamless booking experience.
- Designed the system to reduce customer effort by providing an efficient, all-in-one event arrangement experience.

Personal Portfolio Website (React.js)

- Designed and developed a responsive personal portfolio using React.
- Integrated sections for projects, certifications, achievements, and profile details.
- Included direct links to coding profiles and contact information, presenting a complete professional overview.

LEADERSHIP

- Joint Secretary, CSE Association** Organized and coordinated technical events, workshops, and student activities.
- Member, IEEE** Active participant in technical sessions, seminars, and collaborative learning initiatives.

ACHIEVEMENTS

- Solved 1500+ programming problems on Skillrack.
- Solved 100+ DSA problems on LeetCode and GeeksforGeeks.

CERTIFICATIONS

- Networking Basics (Cisco)
- MongoDB Basics (MongoDB)
